Capabilities Statement

PEW Consulting delivers mission-critical software solutions for federal, state, and local government agencies. We specialize in modernizing legacy systems, building scalable web applications, and ensuring your infrastructure handles peak demand reliably—from routine operations to high-traffic events like international sporting competitions.

Core Competencies

- Cloud Infrastructure & Modernization
- Enterprise Application Development
- Security & Compliance Implementation
- System Integration & APIs
- Performance Optimization & Scaling
- DevOps & CI/CD Automation

Differentiators

- 99.97% uptime maintained across systems handling 10M+ monthly transactions
- 30-60% reduction in processing times across healthcare and enterprise deployments
- 90-day measurable results guarantee with transparent KPI tracking
- 280+ user platform adoption with 100% peak-season uptime

Experience

Prior to starting our company:

- Chewy.com – Enterprise Scale (2021–Present)
 - Critical order insights platform serving 280+ users. Managed 10M+ orders/month with 100% uptime during peak traffic. Doubled user adoption through UX improvements.
- Adobe Inc – Enterprise Security (2023–2024)
 - WAF security dashboard development. 20% efficiency improvement. Enterprise-scale threat detection and response systems.
- Digital Archive of Indigenous Language Persistence (2022)
 - Federally funded research initiative using TypeScript, Rust, and GraphQL. Led 20+ comprehensive peer code reviews surfacing issues early. Enhanced project-wide improvements accelerating roadmap delivery.

Testimonials

“CareCade delivered on every promise made from day one. Our agency achieved 86% revenue growth within six months, and the platform continues to drive our operational success.” — Omer A., CEO, Advanced Care LLC (DSHS/DDA Service Provider)

“RouteOps transformed our transportation operations completely. The platform reduced our scheduling time from hours to minutes, and the automated billing saved us thousands in administrative costs. The team’s healthcare expertise made all the difference in our implementation.” — Khalid E., CEO, Ultimate Care Transportation Washington, NEMT Provider
